Adani: Key Supplier to Growing Coal Demand in India

The key driver of coal demand is Indian Power Sector – expected to reach ~277GW by 2017 from 199GW*
Coal imports have been rising steady in India due to domestic supply problems and higher demand

Carmichael Mine

The map illustrates the proposed rail network for the Carmichael Mine. Key locations and distances are as follows:

- Galilee**: 118 Km from the mine (indicated by a red dot).
- China First**: A port facility on the coast, connected to Galilee by a blue dashed line labeled "Proposed line".
- Newlands**: 305 Km from the mine (indicated by a green dot).
- Abbott Point / Saltwater Creek**: 271 Km from the mine (indicated by a green dot).
- Northern Link**: 195 Km from the mine (indicated by a red dot).
- Dudgeon Point / Dalrymple Bay / Hay Point**: 67 Km from the mine (indicated by a red dot).
- Goonyella**: A major coal processing hub, connected to the Northern Link by an orange line.
- Clermont**: A major coal processing hub, connected to Goonyella by a red line.
- Blackwater**: A major coal processing hub, connected to Clermont by a red line.

Ports in India: An Overview

- About 95% (by volume) of India's international trade moves through Ports
- A coastline of 7,517 km, comprising 13 Major and 187 Non-major Ports
- **Growth (CAGR) over the last decade**
 - ❑ Major Ports: 7% (run by Govt. of India)
 - ❑ Non major Ports : 14% (Private Ports) - Double the growth compared to Major Ports
 - ❑ Mundra Port, India's largest non Major Port **36%**

Increasing Market Share

Units in MMTPA

Total Capacity	235	542

Ports in India: An Overview

Cargo at Indian Ports: 9MFY12: Mundra inches up to 4th

In MMT

Rail Linkages

Advantages

- Mundra – Delhi vis-a-vis Mumbai - Delhi 322 km distance advantage
- Mundra – Bhatinda vis-a-vis Mumbai - Bhatinda:
 - With Bhatinda – Luni; Conversion completed; distance advantage: 392 km
- Double stacking on trains from Mundra & Python Rail: 90 wagons train operated out of Mundra

Deep Draft, Locational Advantage, Established Connectivity

Crude: *Crude – PoL products imports*

- 2 SPMs: Servicing Indian Oil Corporation and HMEL
- Scope to add in 2 more SPMs as cargo ramps up
- 2 Crude pipelines and a PoL pipeline linked to north India

Coal: *Feeding to power projects across the hinterland*

- Mundra caters to 17% of India's coal imports; poised to grow to nearly 25%
- Power generation capacity of 11920 MW under implementation

LNG: *Servicing the "tomorrow" of Energy*

- LNG Terminal of 5 MMTPA proposed
- Supply to hinterland via Mehsana Bhatinda pipeline

Mundra Port Tugs

Pilotage & Towage

- 13 tugs & master mariners
- In house Marine Control System

Internal Transportation

- >50 kms of Conveyor Systems
- >100 kms of private roads
- >40 kms Railway Sidings

Berthing

- 12 Bulk Berths
- 4 Container Berths
- 2 Single Point Moorings

Storage

- 1 mn sq. mtrs of Warehouses
- 400 mega liters Liquid Tank Farms
- 12.5 Hectares of Back up yard for containers

Cargo Handling

- Bulk Handling: 85 MTPA
- Containers: 2.5 Mn TEUs
- Crude Handling: 50 MTPA
- Fully Mechanized Cargo handling terminals

Evacuation

- 120 kms of private railway line
- Pipelines over >1,000 kms
- 3km airstrip at Mundra

Land Notified: 6472 Ha (15,995 Acres). Area Under Possession: 9495 Ha (23,643 Acres)

50 MMTPA Operational Terminal:

- Location: North Queensland, Australia
- Fully mechanized handling system - 8000 tph
- Expansion opportunity up to 100 MMTPA
- Acquisition Value: AUD 1.829 bn

Cargo:

- Long term take or pay agreements for entire 50 MMTPA signed.
- Export Gateway for Bowen & Galilee Basin
- Future Gateway for Bowen and Galilee basin including Carmichael mine

- Perfect fit in the Adani strategy of holding assets offering growth and stability.
- 50 MMTPA port capacity already in place with opportunity for future expansion.
- Stable contracted cash flows with robust operating margins over a sustained period.
- Politically stable and well regulated operating jurisdiction.

Advantageous Location	▪ Close proximity to various mines in Bowen and Galilee basin
Strong demand outlook	▪ Requirement of coal miners to export coal out of Queensland increasing, with very few multi-user port facilities available ▪ NQBP received demand of 108 MMTPA for APCT against available capacity of 50 MMTPA ▪ Incremental coal exports expected from Bowen & Galilee basin is about 300 MMTPA
Stable cargo volumes	▪ Entire X50 capacity contracted out under long term take or pay user agreements ▪ Stable cargo volumes and high visibility of future revenue profile
Asset base of ~ A\$ 1.5 Billion	▪ 50 MMTPA terminal capacity operational with approx. 60% of assets being new ▪ Estimated economic life of asset is 40 years
Future opportunities	▪ Commercially negotiated pricing with Users ▪ Takeover of port operations post expiry of APB contract ▪ Expansion to 100 MMTPA. ▪ Spot Cargo

Dudgeon Port,

North Queensland, Australia:

- Selected as Preferred proponent
- Capacity: 90 MMTPA
- Users: Miners from the Galilee, Mackay Basin
- Future gateway for Adani's Carmichael Mine

Power Generation & Transmission

Under Planning (Pench, Dahej & Bhadreshwar)		7,260
Grand Total		16,500

Power Transmission

Sr. No.	Connecting Locations	Length (Kms)
1	Mundra – Dehgam 1000 MW, 400 KV	433
2	Tiroda – Warora 1000 MW, 400 KV DC	200
3	Mundra – Mohindergarh 2500 MW, 500 KV HVDC	1000
4	Tiroda – Aurangabad ¹ 4500 MW, 765 KV SC	1290
Total		2,923

Notes:

¹ Project under AEL Subsidiary

* In Operation – 4620 MW

- Thermal Operational Capacity – 4,620 MW
 - Five operational Super Critical units (660 MW each) first time in India
 - Lower carbon and green house emission
- Current Projects under implementation –
 - At Advanced Stage : 4,620 MW
(Tiroda – 3300 MW, Kawai – 1320 MW)
 - At Development Stage : 7,260 MW
(Pench - 1320 MW, Dahej – 2640 MW, Bhadreshwar – 3300 MW)
- Long term off take arrangement for 7,269 MW in place (79 % of 9240 MW – Mundra, Tiroda, Kawai)
- Own transmission lines for Power evacuation
 - 433 Kms, 400 KV to transmit 1,000 MW - Operational
 - 1000 Kms, 500 KV HVDC to transmit 2500 MW at Advanced Stage
- Carbon Credits: Projects certified as CDM Projects by UNFCCC
 - Mundra Ph III (2 x 660 MW): First Super – Critical technology project in the world
 - Mundra Ph III - 1.84 Mil CER p.a. for 10 years from commissioning.
 - Tiroda Ph I - 1.19 Mil CER p.a. for 10 years from commissioning

City Gas Distribution

- Distributing compressed and piped natural gas in three Indian cities and three more cities planned.
- Current status: 62 CNG Stations; 135,000 households; over 1800 commercial connections

Oil & Gas Exploration

- Five blocks under various stages of exploration in India
- Two onshore blocks in Thailand
- A block at Gulf of Suez, Egypt

Planning an integrated play in Natural Gas - Exploration, Production, Transportation, Distribution and Power Generation

India's largest selling Edible Oil brand ("Fortune")

- 50:50 JV with Wilmar Group of Singapore.
- 18 facilities across India.
- Refining capacity of 8,730 tpd; crushing capacity of 6,150 tpd and hydrogenation capacity of 940 tpd

Agri Storage Infrastructure

- Controlled Atmosphere Storage Facility (CASF) for fruits & vegetables
- Integrated Grain Silos for Storage & Distribution for Food Corporation of India (FCI) on a long term contract of 20 years from 2004.
