ACKNOWLEDGEMENTS

MFIN is grateful to Members for their unflinching support and cooperation in providing very detailed and rich data in accurate and timely manner.

MFIN would also like to specially acknowledge the support provided by colleagues at M2i for their role in analyzing data.

INTRODUCTION

a. MFIN

Micro Finance Institutions Network (MFIN) is an association of Non-Bank Finance Company Micro Finance Institutions (NBFC-MFIs). Currently the association has 50 members, diverse in size and geographic spread, representing over 90% of the microfinance industry in India (excluding SHGs). MFIN works closely with regulators and other key stakeholders to achieve larger financial inclusion goals through microfinance.

MFIN's vision is to be an engine of inclusive growth for India and help provide financial services to 100 million low income households by the year 2020, in a responsible and transparent manner, thereby helping them build sustainable livelihoods.

MFIN was established in October 2009 as the primary representative body of the NBFCs engaged in microfinance. Since its establishment, MFIN has spearheaded a range of initiatives that help meet the diverse and challenging needs of a rapidly evolving industry. It has been at the forefront of transformative work for the microfinance industry in area of policy advocacy and market development (business conduct, infrastructure, information/analysis, and best practices among others).

Knowledge and information based on relevant, accurate and timely data are edifice of MFIN's work in three core areas of Self-regulation, Advocacy and Development. And over the years, MFIN has taken a series of steps to contribute to enhanced body of information to guide market practices and support policy discourse. The **MicroScape**, our annual publication, is one critical product to support our efforts to bring greater transparency and accountability to the industry.

b. MicroScape

This is the sixth edition of the MicroScape, our annual publication that offers a comprehensive operational and financial update based on Audited Financial statements of member MFIs. Analysis presented in the MicroScape is based on operational data in a self-reported format and Audited Financial Statements collected from the of MFIN member MFIs (NBFC-MFIs).

This edition of the MicroScape captures the important operational and financial trends in the industry for the FY 16-17 and compares key performance indicators for FY 16-17 with previous two financial years FY 14-15 and FY 15-16.

NOTES

a. Data and methodology

- For FY 16-17, data and analysis is based on a total of 41 member institutions. However, there are variation in data sets for other two financial years (FY 14-15, FY 15-16). Please refer to Annexures for year-wise panel of MFIs
- Data and ratios used for operational analysis is taken from self reported operational data in Data Collection Tool (ADCT) sent by MFIs
- Financial analysis is based on the Audited Financial Statements of MFIs for FY 16-17, FY 15-16 and FY 14-15
- Productivity ratios are averages of various institutions productivity
- Financial ratios for various peer groups are based on simple averages of the individual ratios derived for each MFI, unless otherwise stated. This methodology has been employed to net-off the disproportionate impact of large MFIs, on the overall industry data
- CGAP standard definitions and formulae are used for all analyses. Refer to Annexures for details of all definitions and ratio used in the publication
- Financial analysis does not include data from Share, Muthoot and Spandana

b. Peer grouping

MFIs have been grouped based on their Gross Loan Portfolio (GLP) at the end of FY 16-17 (as of 31st March 2017). On this basis, there are 7 MFIs with GLP < Rs 100 Cr, 20 MFIs with GLP > Rs 100-500 Cr and 14 MFIs with GLP > Rs 500 Cr for the FY 2016-17. Complete list of MFIs under different peer groups can be seen in the Annexures. High level number of institutions included for analysis are as below

	All	Top 10	Small	Medium	Large
FY 14-15	38	10	5	19	14
FY 15-16	40	10	6	20	14
FY 16-17	41	10	7	20	14

PERFORMANCE

Since getting identified as a separate category of NBFC the NBFC MFIs have grown considerably in size and outreach. This segment of NBFCs are considered a very important part in the entire Financial Inclusion story of India.

8 MFIN member NBFC MFIs had received in principle approval to become Small Finance Banks (SFBs). Their numbers are not included in this publication since these members have now converted/ are in the process of converting to SFBs. Hence numbers in the current publication would appear less than the last financial year.

NBFC MFIs in terms of outreach MFIs have shown consistent growth. Despite demonetization causing a slowdown in Q3 and Q4 of FY 16-17 there was an impressive growth of over 30% in most outreach indicators (no of clients, branches, employees etc.).

In financial terms key indicators show that there was slight drop in ratios like RoA and RoE. Growth of gross loan portfolio which was upwards of 50% for last three financial years consistently, came down to about 20% in FY 16-17. Towards the end of FY 16-17 delinquency also increased resulting in higher NPAs at the end of FY 16-17.

a. Outreach

In terms of outreach MFIs in FY 16-17 registered a growth of 27% in the overall client numbers of last financial year. Total number of clients reached to 1.98 Cr, branches increased by 32% taking the total number of branches to 7,278 and employees increased by 43% to reach a total strength to 62,786 staffs.

b. Portfolio

Gross loan portfolio increased by 26% to reach Rs. 31,640 Cr. Average loan amount for new loans in FY 16-17 increased by 15% to reach Rs. 22,040. Average loan outstanding per client however saw a slight decline of 2% in number from Rs. 15,396 in FY 15-16 to Rs. 15,042 in FY 16-17.

Among NBFC MFIs BFIL topped the list with gross loan portfolio of Rs. 9,150 crores in FY 16-17. In FY 16-17 top 10 MFIs in terms of GLP contributed 78% of the portfolio. The adjoining chart gives portfolio numbers of those institutions which are in top 10 in the FY 16-17 and their portfolio numbers in the last three financial years.

It is also worth mentioning that Muthoot Microfin due to portfolio transfer in process looks to have small size in FY 14-15.

Break-up of off-balance sheet portfolio for FY 16-17 shows that 32% of it is created as business correspondent, 53% through securitization and remaining 15% as assigned or bilateral agreement.

24 MFIs have reported Business Correspondent (BC) operations totalling to Rs. 2,245 Cr which is an increase of 23% over last financial year.

c. Productivity and Efficiency

Most productivity and efficiency ratios have seen a slight dip which can be attributed to the demonetization and its after effects. In terms of key productivity indicators, client per loan officer and client per branch came down slightly. Each loan officer in FY 16-17 catered to 483 clients whereas in terms of branch 2,249 clients were served on an average by each microfinance branch.

Cost per loan ratio indicates that cost for acquiring and serving a customer went up significantly in FY 16-17 across all size segments of the MFIs. Cost of loan for the overall industry is Rs. 1,024 per customer.

OSS for the industry remains favorable. Having said that, analysis of Operational Self Sufficiency (OSS) ratio shows that as compared to last year, small and medium MFIs have been able to maintain their OSS with very slight drop (1% to 2%). However, large MFIs saw a drop of around 8.45% in OSS.

d. Financials¹

d.1 Assets

Total assets have grown by 44% to reach Rs. 33,638 Cr in FY 16-17. All subset of asset types has remained almost consistent over the last three years for the industry.

¹ Financial analysis does not include data from Muthoot and Spandana

d.2 ROA

It is noteworthy that MFIs in all categories have recorded positive a Return On Asset (ROA) in FY 16-17, though there is a slight drop in the ROA as compared to FY 15-16. Overall industry ROA is 1.77% whereas for the large MFIs it is more than 2%. However, the small MFIs are facing some challenge on this front. Demonetization was the main reason resulting in decline in the ROAs.

d.3 Equity & Borrowing

Proportion of equity increased slightly as compared to last year. Total equity increased to Rs. 6,294 Cr in FY 16-17 from Rs. 3,714 Cr in FY 15-16.

d.4 ROE

In FY 16-17, the ROE remained positive across all MFI segment, though there has been a decline in comparison to previous year.

d.5 Borrowings

Total borrowing for the industry stands at Rs. 25,465 Cr as on 31 March 2017, up by 41% from Rs. 18,099 Cr as on 31 March 2016.

d.6 Debt equity ratio

Break up of debt equity ratio shows that medium and large MFIs continue to stay ahead in terms of leverage. Smaller MFIs continue to face challenges for debt funding in proportion to the equity available to them as compared to large MFIs.

d.7 Income

Analysis of income statements of NBFC-MFIs shows that interest income was around 80% of the total income while fees and commission was around 13% during the FY 2016-17.

d.8 Profitability and yield on GLP

Analysis of financial statement shows that in the current financial year all NBFC MFIs which are part of the publication have made profits. In terms of profitability

d.9 Expenses

With stress on portfolio due to demonetization, a significant expense category for provisioning and write off expense, contributing 13% to total expenses has emerged.

d.10 Current ratio

Current asset to current liability ratio shows a healthy trend. In FY 16-17 all categories of institutions in terms of current ratio, lie between a ratio of 1.8 to 1.9.

d.11 Expense to loan portfolio

Small MFIs continue to improve their efficiencies. Overall operating and personnel expense ratio remained stable with the above-mentioned exception of Small size MFIs.

d.12 Gross Non-Performing Asset²

As of 31st March 2017, the Gross Non-Performing Asset for NBFC MFIs stood at 2.38% as per the analysis of financial statements. This is significantly higher than all previous years for which data is being compared.

² Data excludes MFI with substantial portfolio in AP during FY 10-11 AP crisis namely Spandana and also Muthoot.

ANNEXURE

a. Definitions

Term	Definition
Total Assets	Includes all Assets as provided by audited financials
Offices	Number, including head office
Employee	Total number of staff members
Capital to asset ratio	Total Equity /Total Assets
Debt to equity	Total Liabilities / Total Equity
Portfolio to assets	Gross Loan Portfolio /Total Assets
Clients	Number of clients with loans outstanding as on date
Percent of women clients	Number of women clients /Number of clients
Number of loans outstanding	Number of loans outstanding as on date
Gross loan portfolio	Gross Loan Portfolio as on date, includes Net loan portfolio and Managed Portfolio
Average loan outstanding per client	Gross Loan Portfolio/Number of Active clients
Average outstanding balance	Gross Loan Portfolio / Number of Loans Outstanding
Return on assets	(Net Operating Income - Taxes) / Average Total Assets
Return on equity	(Net Operating Income - Taxes) / Average Total Equity
Operational self sufficiency	Financial Revenue / (Financial Expense + Impairment Losses on Loans + Operating Expense)
Financial Revenue/Assets	Financial Revenue / Average Total Assets
Profit margin	Net Operating Income / Financial Revenue
Yield on gross portfolio (nominal)	Financial Revenue from Loan Portfolio / Average Gross Loan Portfolio

Term	Definition
Total Expense/ Assets	$(\text{Financial Expense} + \text{Net Impairment Loss} + \text{Operating Expense}) / \text{Average Total Assets}$
Financial Expense/Assets	$\text{Financial Expense} / \text{Average Total Assets}$
Provision for Loan Impairment/ Assets	$\text{Impairment Losses on Loans} / \text{Average Total Assets}$
Operating Expense / Assets	$\text{Operating Expense} / \text{Average Total Assets}$
Personnel Expense/ Assets	$\text{Personnel Expense} / \text{Average Total Assets}$
Administrative Expense/ Assets	$\text{Administrative Expense} / \text{Average Total Assets}$
Operating Expense/ Loan Portfolio	$\text{Operating Expense} / \text{Average Gross Loan Portfolio}$
Personnel Expense/ Loan Portfolio	$\text{Personnel Expense} / \text{Average Gross Loan Portfolio}$
Cost per client	$\text{Operating Expense} / \text{Average Number of Active Borrowers}$
Cost per loan	$\text{Operating Expense} / \text{Average Number of Loans}$
Clients per employee	$\text{Number of Active Borrowers} / \text{Number of Personnel}$
Loans per employee	$\text{Number of Loans Outstanding} / \text{Number of Personnel}$
Clients per loan officer	$\text{Number of Active Borrowers} / \text{Number of Loan Officers}$
Loans per loan officer	$\text{Number of Loans Outstanding} / \text{Number of Loan Officers}$
Portfolio at Risk > 30 Days	$\text{Outstanding balance, portfolio overdue} > 30 \text{ Days} + \text{renegotiated portfolio} / \text{Gross Loan Portfolio}$
Portfolio at Risk > 90 Days	$\text{Outstanding balance, portfolio overdue} > 90 \text{ Days} + \text{renegotiated portfolio} / \text{Gross Loan Portfolio}$
Write-off Ratio	$\text{Value of loans written-off} / \text{Average Gross Loan Portfolio}$
Loan Loss Rate	$(\text{Write-off s} - \text{Value of Loans Recovered}) / \text{Average Gross Loan Portfolio}$

b. Abbreviations

AP	Andhra Pradesh
BoP	Bottom of the Pyramid
CGAP	Consultative Group to Assist the Poor
CoC	Code of Conduct
Cr	Crore
DFI	Development Finance Institution
